

Trinity Trumpet

Sounding a clear call!

Winter 2008

A NOTE FROM THE HEADMASTER

Spring is just around the corner. And Spring, as you know, is a time of renewal. Trees will be renewing their leaves and the grass will return to its lush green color. The temperatures will rebound to give us warmth during the day.

Likewise, we should renew our commitments to our Lord and to our school. As headmaster, I will strive to make Trinity School the best that it can be both in service to our students and to God. I expect the teachers and staff to renew their commitments to the students and to work even harder to provide the best faith-based education possible for all students. I expect the students to work even harder these next few months as they prepare themselves for the end of grade tests and for the next grade. I expect parents to renew their commitment to the children and to the school by providing support to the teachers and doing everything possible to ensure that their children are learning sound academics and Christian principles both at school and at home.

With all of us working together with a renewed fervor, we should see great things, both academically and spiritually, happening at Trinity School this spring.

To God be the glory!

Lewis Freeman

- 15-20 Book Fair**
- 19 Grandparents' Day**
- 22 Teacher Workday
No School**

March Events

- 6-7 Drop Off for Yard Sale**
- 8 School Yard Sale**
- 13 Student/Faculty Basketball**
- 21-28 Easter Break**
- 31 End of Grading Period**

PRESCHOOL NEWS

BLUEBIRDS

As Bluebirds fly into a new year, they are continuing to work on recognizing their alphabet. They finished January having covered Aa - Rr. The children got a hands-on approach of how Jesus lived when He was a little boy through acting out activities that Jesus may have been involved in as a child. They had an opportunity to use real tools to learn how Jesus helped Joseph in his carpentry shop. They also learned about how Jesus loves each of us no matter what our differences are as we learned about the life of Dr. Martin Luther King, Jr. With the cold weather upon us, we created snow pictures and learned about how penguins lived. Bluebirds ended January by doing a unit on dinosaurs.

Mrs. Austin

BUSYBEES

In January, the children learned about snowmen, ice, hibernation, and continued study of alphabet. We enjoyed adding to our sign language vocabulary each day. We continue to sharpen our skills preparing for kindergarten.

February themes will include the importance of Grandparents, the myths of Groundhog's Day, Abraham Lincoln, and George Washington. Also, the numeric value of coins (penny, nickel, dime, and quarter), the the dollar bill.

March themes include Easter, Spring, wind, counting to 80, improving cutting skills, and Fun, Fun, Fun!

I want to express my thanks and appreciation for your prayers on my father's behalf.

Mrs. Scruggs
